

PROPOSED CLEAN WATER COALITION (CWC) REGIONAL SEWER CONNECTION CHARGE INCREASES

What is the Clean Water Coalition? The CWC is made up of the four entities responsible for wastewater treatment in our valley; the Cities of Henderson, Las Vegas, North Las Vegas and the Clark County Water Reclamation District. The purpose of the CWC is to plan, design, finance, construct and operate a regional system for the conveyance of effluent from the four member agencies to a new outfall location in lake Mead. The need for a new outfall location is driven by the following factors: increasingly stringent water quality regulations, protection of the Las Vegas Wash and Bay, increasing effluent flows, varying amounts of water in Lake Mead and the Colorado River due to droughts, protection of our drinking water source and continued reliance on return flow credits.

The CWC Regional Sewer Connection Charge was originally implemented October 1, 2006. The proposal is an **INCREASE TO EXISTING CHARGES**. The connection charge is for **NEW FIXTURE INSTALLATION ONLY** beginning July 1, 2009. The CWC fee is **IN ADDITION** to the sewer connection fees already charged by the Cities of Las Vegas and North Las Vegas.

The Las Vegas City Council and the North Las Vegas City Council will conduct public hearings to review public comment and to consider implementation of the increase to CWC regional sewer connection charges, effective July 1, 2009. The hearing will be held on:

City of Las Vegas - May 20, 2009 – 9:00 AM
City Hall - 400 Stewart Street
Las Vegas, NV 89101

City of North Las Vegas - May 20, 2009 – 6:00 PM
City Hall - 2200 Civic Center Drive
North Las Vegas, NV 89030
